SENT JUNE 2026

RE: THE ROLE

To whom it may concern,

You have advertised for a graphic designer. This is an application from an entire design team.

I am the Head of Growth at **Design Bees**, an Australian design service based in Surry Hills, NSW. I am writing because the role you are filling can be solved without the cost, the wait, or the risk of a single full-time hire.

With Design Bees you get a **dedicated designer** who learns your brand and how you like to work, backed by a full team across branding, web, print and motion, and a **dedicated account manager** who scopes every brief and signs off on the quality before anything reaches you.

Now I know it sounds hard to believe, but the numbers tend to make the decision for people. A full-time designer on an \$80k salary costs you around **\$54** an hour of actual work once you add super and the weeks they are on leave or off sick. A Design Bees plan works out to **\$30** an hour for a full team, billed only when you have work for us.

There is no recruitment to run, no salary to carry through quiet weeks, and no single point of failure. We are on your timezone, **8am to 6pm AEST**, a local Australian business specialising in Australian markets, so there is no re-briefing from scratch and no offshore guesswork. Even better, if your designer is off sick, another picks up the work and it still gets delivered, as always, within a **24-hour turnaround**. Can you say the same for your employee at double the cost?

I know it sounds too good to be true, but here is the cherry on top. You can **pause or cancel anytime**, with no lock-in.

I have attached our Design Bees resume and two references so you can see this in practice rather than take my word for it. Arcadier, a global B2B marketplace platform, used us to refresh a decade of brand collateral and strengthen their marketing without adding overheads. Generation-e, an enterprise technology provider, cleared most of a design backlog inside a month and now runs on predictable, on-demand support. Both speak to the same thing: senior output, fast turnaround, and a partner who sticks around.

The simplest next step is a quick look at our work at www.designbees.com.au/our-work, or I would love to jump on a quick call to talk through how we could fill this role for you without the risk of increasing headcount during these turbulent times.

You are also welcome to send a brief and put us to work on a **10-day free trial**, no credit card required, including **4 hours of free design work**.

Kind regards,

AJ Kavanagh
